

## Announcement

---

Dear customers,

On the 1/9/2018 the security service provider at Skyport a.s. will change.

Although we are trying hard together with the new service provider to eliminate any possible complications during a currently on-going trial period, we cannot guarantee that in the first days of service provision there won't be any delays. Possible delays may occur especially during the acceptance process of export shipments.

Due to the above mentioned reason; we would like to kindly request from you to deliver your shipments earlier and with a bigger time reserve, than you are used to now.

Also we would like to remind you that shipments delivered under the "regulated agent" (RA) programme can be accepted much faster, than shipments which must be x-rayed at our terminal. If you have the possibility to send your shipments under the regulated agent programme, please kindly do so.

Thank you, with regards

In Prague: 23/8/2018

**Ing. Boris Kopečný**

**Operations Director Skyport a.s.**
